

AWG Inductor FD, EN 16712-1, admixing rate 0-6 %

Order number: LT-01170

The admixing unit of these light-weight foam inductors "FD" are made of black anodized aluminium. The powder coated aluminium base ensures the inductors' stability in action. The rotatable admixing unit guarantees kink-free pick-up hoses. By turning the rate setting sleeve, the admixing rate can be set.

Available rates are: 0 / 0,1 / 0,2 / 0,5 / 1 / 2 / 3 / 4 / 5 / 6 %.
Working pressure is PN16.

material: aluminium
dimensions: 294 x 120 x 155 mm

nominal size: Z2-C
inlet / outlet: STORZ 52-C
flow rate / 8 bar: 200 l/min
weight: 2.5 kg

nominal size: Z4-C
inlet / outlet: STORZ 52-C
flow rate / 8 bar: 400 l/min
weight: 2.5 kg

nominal size: Z4-B
inlet / outlet: STORZ 75-B
flow rate / 8 bar: 400 l/min
weight: 2.65 kg
