

## rescue-tec Backpack Forest, for DIN 14800-18 wildfire

**Order number:** LT-01217

The backpack has enough space for four 30 m hoses (diameter 25 mm) with two hollow stream nozzles, a distribution pipe, goggles and half mask.

It has two big inner compartments. Each is big enough for two 30 m hoses (Ø 25 mm) and has also a side opening. At the side lid the stream nozzle is fixed and easy to remove for operations. The backpack has three exterior compartments for e.g. goggles and half masks. At the front a distribution pipe can be fixed.

The shoulder straps are stowed in a compartment, so a comfortable accommodation in a standard compartment of the vehicle. It is also possible to carry the backpack as bag. On the front side a fleece strip is attached for a reflective shield (300 x 50 mm) which allows individual identification. (without contents)

material: Cordura 1000D  
dimensions: 47 x 41 x 25 cm  
volume: ca. 53 l  
weight: 1.94 kg
