

rescue-tec Hose Bag Gütersloh, material Cordura

Order number: LT-01240

The hose carrying bag Gütersloh is an alternative to the hose carrying cage. Inside is space for 3 x 15 m C hoses and is smaller than the carrying cage according to DIN 14827.

The upper side can be easily opened by a zipper for easy insertion the hoses. To lay the hose line, the lateral opening can be flipped open, the hose runs without much resistance. Arrived at the smoke border, the remaining hose length can be quickly pulled out of the bag.

The bag can be carried with the big carrying handle or the shoulder strap. The side pocket offers space for a mini coupling wrench. The two upper pockets hold two 3D wooden wedges and two hose holders. To identify the bag, there is a brushed wool ribbon 380 x 80 mm on the front side for a reflex sign.
