

## Eccotarp Hose Winder ET Roller-5, for A-, B-, C- and D-hoses, battery operated

**Order number:** LT-01325

Thanks to its powerful electric motor, the battery-operated winder for fire extinguishing hoses enables hose winding very comfortably in the shortest possible time. The device can also be used for emptying filled hoses or for controlled unwinding. The intelligent motor control regulates the winding speed automatically.

- for hose sizes A, B, C and D
- winds up dry and damp fire hoses up to a diameter of 110 mm quickly and conveniently
- simple operation, quick folding into the transport position
- intelligent motor control regulates the hose winding speed
- motor with battery operation – winds with a single charge up to 4.600 m of hose
- speed 1m / s
- REVERSE function - for conveniently controllable unwinding
- can also be used for emptying a filled hose
- ergonomic, robust construction
- tiltable chassis - stabilizes the wrapper and prevents it from rolling away during operation
- powerful DC motor resistant to water and dust
- powerful Li-Ion battery
- automatic switch-off in the case of overload

operating voltage: 36 V

battery type: Li-Ion

dimensions when in use (w x d x h): 480 x 360 x 1080 mm

folded dimensions: 480 x 270 x 900 mm

weight: 23 kg
