

## Vallfirest Portable Pump Black Hawk BH1, with suction pump, Storz C

**Order number:** LT-02001

The lightweight and robust vft Black Hawk 1 portable fire pump is equipped with a single-stage centrifugal pump and a 4-stroke Honda engine and was developed for rapid intervention in vegetation fires. A powerful and balanced combination with an output of up to 6.9 bar and a maximum flow rate of up to 260 l/min.

The device is extremely light. An ergonomically designed handle on the top ensures comfortable carrying.

Constructed from lightweight aluminum alloy and high quality components. The flat base made of polyethylene is equipped with an anti-vibration body (silent block).

Engine Honda GXH50: Gasoline-powered 4-stroke internal combustion engine. The engine is CARB and EPA certified. With the built-in clutch, easy starting is possible.

Single-stage centrifugal pump: compact, efficient and reliable; made of corrosion-resistant and hardened aluminum, rust-free axles on the engine crankshaft, high-quality mechanical seals and aluminum turbines. The pump is compatible with foam concentrate.

fuel tank: 0.77 l

flow rate: 260 l/min

output: up to 6.9 bar

material: lightweight aluminum alloy, black polyethylene flat base

dry weight: 9.65 kg
