

Vallfirest Extinguisher Backpack, capacity 20 liters

Order number: LT-02010

The water extinguishing backpack Vallfirest marks progress in professional and ergonomic equipment, leading to greater worker performance and better crew operation when combining the use of backpacks with manual tools. It is with multi-velcro tool and lance-holder system to transport Pulaski tools, axes and telescopic fire swatters. This allows one's hands to remain free while moving.

Also included is a pocket and belt with Alice Clip system for accessories.

It has an output valve with 360° system to work from both the right and the left with the same ease. The double-piston lance has a continuous stream; 8 liter-per-minute performance; maximum 12 m distance; mist and stream options. Cushioned shoulder and waist cinches for ergonomic carrying.

capacity: 20 l

empty weight: 2.54 kg

size: 620 x 480 x 50mm
