

## Scotty Forestry Foam Pump and Backpack 4000F-BP

**Order number:** LT-02200

The Scotty 4000F pump is a single action pump with a foam educating attachment and air aspirating nozzle. Each time the pump is charged, 1 % of foam concentrate is educted into the pump chamber. The pump has a brass pump chamber protected by an engineering-grade polymer sleeve. No tools are required to disassemble the unit. It can be completely disassembled by hand for in-the-field maintenance.

- fully rubberized and therefore easy to clean

material: strong polyester reinforced fabric, protected by a thermoplastic polymer layer

capacity: 19 l

filler port: 4"
