

BIG Battery Fan HP18 iB+, 230 V charger, air performance appx. 38.000 m³/h

Order number: LT-06078

Thanks to its low weight and simple operation, the battery-operated HP18 iB+ can be put into position quickly and easily by just one person. The powerful battery allows ventilation for 90 minutes at full load and over 9 hours at reduced power. Thanks to the intelligent battery technology, the remaining running time is displayed at any time and the air output can be adapted to requirements.

- high quality lithium-ion interchangeable battery Made in Germany
- 90 minutes of full power and up to 9 hours running time at reduced speed
- automatic switchover between battery and mains operation without a drop in performance
- color display with remaining run and battery status display
- compact dimensions for optimal loading in the vehicle
- the battery can be changed in seconds if required
- can be used inside buildings - no exhaust gases

supplied with:
battery
charger 230 V

air output in the open air: approx. 38,000 m³/h
drive: electric / battery
battery: Li-Ion
battery life: 90 minutes - 9 hours
charge cycles: 500
charging time: approx. 270 min (100%)
power connection: 230 V / 50 Hz
inclination adjustment: 0° - 180°
dimensions: 51 x 52.5 x 28.5 cm
weight: 22.6 kg
