

Iconos Clamp-On Sliding Ring Hose size D25

Order number: LT-80090

The iconos clamp-on sliding ring is the simplest and most effective solution if the displacement and pulling of hoses in staircases, around corners and through doorways is involved.

Thanks to its conical form the hose simply slides over the obstacles and gives the squad valuable seconds for quicker firefighting and rescue. In addition, the patented iconos clamp-on sliding ring is also extremely economical. The hose couplings no longer shut as quickly and the three step assembly without special tools saves a lot of time and money.

- only 6 mm Allen key necessary for assembly
- no special tools or wires required
- ideal for hose carrier baskets and hose washing facilities

material: aluminium, warm pressed
