

## Ambu Perfit ACE, variable size 3-6

**Order number:** RD-01010

The Perfit ACE is a revolution in disposable adjustable collars. Combined with the Mini Perfit Ace these two collars offer an incredible 28 sizes between them, ensuring that patients can now have the most effective and accurate fit ever.

The Perfit ACE collar assists with the maintenance of neutral alignment, the prevention of lateral sway and anterior-posterior flexion and extension of the cervical spine during transport and routine patient care or movement. The unique flip-chin feature facilitates intubation and the removal of vomits. Nasal cannula holders located on the collar body secure the oxygen tubes and safety buttons have been incorporated into the design to allow for maximum reliability.

The collar is radio-translucent, CT and MRI compatible and comes with a ventilated posterior shell for fluid drainage. Because the collar is a one-piece extrication collar the application is very simple with the additional benefit that there are no extra pieces that can get lost. The horizontal sizing line makes it easy for the rescuer to measure and select the correct adjustable size for the patient.

The Perfit ACE is the only adjustable adult one-piece rigid cervical spine immobilization device with 16 precise settings for a customized fit. It adjusts within the 4 standard adult settings ranging from neckless to tall.

adjustable sizes: neckless, short, regular and tall  
dimensions: 55.4 x 21.5 x 1.4 cm  
weight: 200 g
