

Spencer Paediatric Spider Straps System RSP, with size scale

Order number: RD-02033

The small patients can be optimally fixed or transported with the harness system. The fixation takes place by means of Velcro closures.

The medium strap with size scale can be used to measure the body size.

- extremely robust and resistant system
- integrated measuring strap
- specifically designed to be used with the "Baby Go" spine board
- reflective parts

material: nylon

weight: 460 g
