

Spencer Basket Stretcher, incl. 3 patient straps and footrest

Order number: RD-02060

Basket stretchers are used wherever there are problems transporting injured persons using conventional means such as stretchers or carrying chairs. Regardless of whether injured persons are being carried up and down steep, narrow stairs, on scaffolding or building sites, in mines, on boats or in shafts – the basket stretcher is always a useful transportation aid.

- polyethylene tray
- surrounding aluminum frame
- four eyes for suspending the abseiling spider
- surrounding polyamide rope for securing the straps
- handles all round for secure grip
