

Spencer Recovery Stretcher TOTAL

Order number: RD-02069

A compact, versatile and robust stretcher made from tough, elastic plastic. The stretcher can be stowed in a practical bag and so transported to almost any operation site. Especially suitable for the transport of patients in narrow space. Regardless of narrow stairs, in mines, on building sites or in shafts. The stretcher is always a useful transportation aid.

- polyethylene body
- surrounding steel eyelets for fixing patient or carrying straps

supplied with:

additional attachable handles up to eight persons for transport of heavy weight patients
straps for pull and lifting the stretcher
aluminium carbine
nylon transport bag

dimensions: 243 x 97 x 0.3 cm

load capacity: 200 kg

weight: 6 kg
