

Spencer Aneroid Sphygmomanometer Sistema 3

Order number: RD-03004

Blood pressure is one of the most important parameters in an emergency and can be determined quickly and easily. To get a reliable measurement, you need the right equipment for every patient. Sistema 3 was developed to accommodate three cuff sizes in a small space.

A quick plug connection for the hose is provided on the pressure gauge for easy replacement of the cuff. Each cuff is made of breathable material with a moisture blocker, which prevents the penetration of dirt and liquids and at the same time enables easy cleaning and disinfection.

Sistema 3 is extremely compact and light, so it fits into any first aid kit or emergency bag and can be integrated into hospital systems to guarantee the correct blood pressure measurement for every patient.

- three different cuffs, each for children, adults and large adults
- easy replacement of the cuff thanks to the quick connector
- breathable, easy-to-clean material
- extremely light and compact
