

Ambu SPUR II Resuscitator for Adults, incl. facemask and O² reservoir

Order number: RD-05100

The Ambu SPUR II is a single use disposable manual resuscitator.

The SPUR resuscitator is fully disposable, thus eliminating entirely any risks associated with re-assembly or cross-contamination. All the materials that are used, including the patient valve, are transparent, enabling an easy visual inspection of the components, all of which are 100 % latex-free.

It has a support strap, which reduces hand fatigue and the textured surfaces facilitate a steady grip. A splashguard protects rescuers from any harmful aspirations.

- 100 % latex free, made from PVC
- designed for body weights of at least 30 kg (10 years)

dimensions: 295 x Ø 127 mm

tidal volumes: 1500 ml

volume of oxygen reservoir tubing is approximately: 100 ml
