

## Oxygen Nasal Cannula, 2 m connecting hose

**Order number:** RD-05220

Oxygen goggles from AEROpart for inhalation with medical oxygen.

- straight nosepiece
- transparent and soft
- with 200 cm tube
- PVC-free and latex-free
- with ear piece

The oxygen goggles are used in emergencies by the emergency services, in hospitals, in surgeries and even at home. They are used during ventilation with an O2 cylinder pressure regulator. The funnel at the end of the oxygen tube fits any standard connection nozzle.
