

## rescue-tec Emergency Backpack XL - Magnet, red, with individual text

**Order number:** RD-07835I.R

In the large main compartment of the backpack there is space for 6 inner pockets with zips and transparent windows. They are fixed in the backpack with a magnetic holder, which enables quick removal and thorough cleaning.

The attached front pocket is equipped with many elastic loops in different sizes for storing first aid material or important documents.

The outer shell and the inner lining are made of high-quality PVC. This fabric is extremely durable and easy to clean. The two-way YKK zippers allow the backpack to be opened and closed easily and quickly. For better handling, especially with gloves, all sliders are equipped with zipper extensions.

If you want to use the backpack purely as a carrying bag, you can hide the shoulder straps completely under the back cover.

- interior with magnetic holder
- comfortable shoulder straps
- one handle each on the side and top
- 3M reflective material on the front pocket
