

PAX Modular Bag Set 1 - Magnet, PAX-Tex

Order number: RD-08345

Welded inner pockets with magnet fastening for PAX emergency backpacks and PAX emergency bags. The welded inside pockets are compatible to our Wasserkuppe backpacks magnet. They can also be used as a small packing unit and thus ensure clarity. All inner pockets have an inscription window that can be fitted from the inside. The two zipper sliders on each bag also allow a seal to be attached. We offer the inside pockets in 5 different sizes and in 6 different colors and have put them together for you also as sets in different variants.

Easy to clean

We have equipped our backpacks with particularly easy-to-clean inner pockets for professional use. There is no fabric edge or open surface to absorb dirt or other contaminants. Compatible with all common disinfectants.

The fixation by magnets not only facilitates the removal of the modules, it also promotes easier disinfection.

Standard configuration: 1 x M red, 1 x M yellow, 1 x FT green, 1 x FT blue.
