

Water Jel Dressing 10 x 40,5 cm, steril gel-soaked

Order number: RD-09420

Water-Jel sterile burn dressings relieve the pain, cool the burn and protect against airborne contamination in one simple step, with no special training required. Using the same gel technology used in the fire blankets, these dressings consists of a medical grade, non-woven polyester carrier and are available in five convenient sizes.

Because the gel is water based and water soluble, the dressings won't stick to the wound and the gel can be easily rinsed away.

All dressings can be used on superficial, partial and full thickness burns.

- stops the burning process
- cools the burn and relieves pain
- helps to prevent contamination
- non-adherent dressing
