

Water Jel Fire Blanket, middle, sterile, in foil pouch 183 x 152 cm

Order number: RD-09480

Water-Jel fire blankets offer one of the quickest, easiest and most direct methods of administering emergency first aid burn care. When placed on a victim, gel-soaked blankets ease the pain, cool the burn, and help protect against airborne contamination all in one easy step. They can also be used to extinguish flames on a victim, put out small fires.

The fire blankets are composed of a 100 % worsted wool carrier with an intercellular weaver capable of absorbing up to 13 x its own weight. The wool is soaked in water based, water soluble gel that is bacteriostatic and biodegradable.

The Water-Jel fire blanket is packaged in flexible foil pouch where space is limited.
