

Trauma kit for first aid, MANV

Order number: RD-80209

Optimal first aid - The trauma kit for firefighters and police.

With the ever-increasing number of MANVs, effective preparation is essential.

Developed in close cooperation with paramedics, this trauma kit offers lightning-fast availability in an emergency and for heavily bleeding wounds.

- perfect addition to first aid kits, emergency backpacks and bags
- Versatile and extremely compact
- Ideal for schools, public facilities, airports and train stations
- modular bag with Velcro strips for easy storage (even directly on the body)
- Practical transparent pocket, makes it easier to search for materials
