rescue-tec equipment holster Mechernich

Large belt holster can be fixed to a normal leather waist belt, on a hip belt consisting of respiratory equipment, on a fireman's safety belt and on the Molle-system. More you will find [there](#).

material: rtx® 950

scissors Cologne

The advantage of the scissors Cologne is to cut cords, wires, belts etc. with only one hand.

length: 21 cm

UNISEK pocket size key 2.0

The pocket size universal key connects all couplings.

bitting gauge

To open doors without door handle.

length: 18 cm

tubular loop, 180 cm

Certified sling made from tough, endless sewed material for height rescue and fall protection. Also applicable for crash rescue, self rescue, door opening out of cover, for effective scanning of rooms, fixing of objects and much more.

width: 25 mm, breaking strength: 22 kN

lightsticks

Activate by bending. The sticks light about 3 hours very bright. After that app. 20 hours with lower light. Ideal for marking persons, temporary left equipment or exits and escape ways.

colours: red, green, yellow

permanent marker, colour yellow

It is used for marking rooms or doors during fire fighting. The marker serves for signing especially on dark, rough and dirty surfaces.

3D wood wedges

For securing the return path (in case of one-way opened doors) and to secure windows and doors. Three-dimensional with a draft of 1-25 mm and 20-40 mm.

elastic safety straps

Ideal to protect equipment like knives or scissors against lost.
material: elastic cord, length normal: 70 cm, length pulled: ca. 100 cm

Partially the pictures show filling samples.
