

rescue-tec Accessory Bag Hamburg, with individual text

Order number: TA-022301

This accessory bag to the breathing mask has been developed in cooperation with fire brigade Hamburg. It has been built to transport a flash hood, collar and other equipment separate to the breathing mask. Thus lint or dust can not enter into the mask's filter.

The bag can be fastened with webbing or string (not included) at the mask bag or a belt. Alternative the bag is fitted with two D-rings for flexible fixation with carabiner or shoulder strap (not included).
(without contents)

This accessory bag comes with its own labeling request. The front offers enough space (17 x 11 cm) for the vehicle name or the name of the district or both.

material: Cordura 1000D

dimensions: 29.5 x 20 cm

Please ensure sufficient contrast between bag's basic colour and text!

This is an individual product. It can not be exchanged.
