

rescue-tec Backpack hose reserve, for forest and vegetation firefighting

Order number: TA-02940

The rescue-tec backpack hose reserve was specially developed for transporting pressure hoses during forest and vegetation fires in impassable terrain.

- Three hose compartments individually adjustable to C42 or D25 pressure hose
- two large side pockets
- padded shoulder straps
- Lap and chest belt
- robust Cordura fabric

The individual hose compartments can be individually adjusted to the respective hose sizes using straps and ensure a tight fit. The two large side pockets (31 x 25 x 10 cm) offer storage space for dividers, nozzles or other equipment.

Additional equipment can be attached to the two side loops using carabiners. The backpack is equipped with a reflective strip for better visibility. Both lid flaps of the side pockets are equipped with fleece for reflective signs (150 x 50 mm).

material: Cordura 1100dtex
dimensions: 50 x 62 x 27 cm
weight: 1.22kg
