

rescue-tec Clothing bag with boot pocket, Plane

Order number: TA-03111

Whether in everyday work or in private life, the clothing bag scores points with its versatile application options

- hard-wearing
- easy to clean
- versatile in use

The bag for turnout gear is made from hard-wearing tarpaulin material and is therefore easy to clean. The bag has a spacious main compartment and a small side pocket. The main compartment offers enough space for your outer clothing and the shoes fits perfectly in the side compartment. The bag is equipped with a divisible carrying handle and a shoulder strap and can be conveniently transported as required.

The subject of operational hygiene was also taken into account in the design of the bag! Plastic feet have been attached to the underside of the bag to protect it from dirt. There are sufficient ventilation openings on all sides of the bag and the removable inner bottom makes cleaning easier.

Material: tarpaulin

Dimensions: 70 x 30 x 30 cm
