

## rescue-tec First Explorer Bag Retz, with individual text

**Order number:** TA-040701

This bag was developed for the first exploring squad. All essential tools for opening a door, window opening, elevator rescue, vehicle opening etc. can be carried and removed quickly. The tools are clearly arranged and safely stowed away.

Thanks to the slim design, the bag can easily be stowed in the crew cabin or in the command car and is quickly at hand. This bag comes with its own labeling request. The front offers enough space (15 x 10 cm) for the vehicle name or the name of the district or both. A loop for a Velcro label 150 x 50 mm is attached to the front for identification.

- little need for space
- clear arrangement of tools
- two D-rings for attaching a shoulder strap
- reinforced and padded outer wall
- inside made of easy-care, robust tarpaulin

material: nylon, tarpaulin

dimensions closed: 38 x 36 x 7 cm

dimensions open: 94 x 70 cm

weight: 1.06 kg

**Please ensure sufficient contrast between bag's basic colour and text!**

This is an individual product. It can not be exchanged.

This bag is also available as a set with the corresponding tool kit. More you will find [there](#).
