

rescue-tec Back Pocket for hydration bladder, for Combi Carrying System

Order number: TA-05320

The rescue-tec back pocket for hydration bladder is specially developed as an accessory for the rescue-tec Combi Carrying System Wildfire. A drinking bladder with a capacity of up to 3 liters (not included) can be safely transported in it. This makes it possible to drink quickly and sufficiently during use.

- compatible with the Combi Carrying System - basic module
- attachment to the shoulder and lap belts at the back
- easy to close with the drawstring and stopper
- special snap fasteners prevent the bag from unintentionally coming off
- robust Cordura fabric
- Velcro for identification label

The back pocket for the hydration bladder can be easily adapted to the combination carrying system. The reflective strip ensures good visibility and additional equipment can be attached to the sewn-on loop strap. (without contents)

material: Cordura

dimensions: 41 x 22 x 5 cm

weight: 0.41kg
