

rescue-tec Holster Radio/Mobile Phone, for Combi Carrying System

Order number: TA-05340

The rescue-tec Holster radio/mobile phone was developed specifically as an accessory for the rescue-tec Combi Carrying System Wildfire. You can carry a radio and a mobile phone in it. Both devices are easily accessible and safely stored at the same time.

- compatible with the Combi Carrying System - basic module
- attachment to the shoulder strap on the right or left
- radio protected against loss with a safety push button
- Padded compartment for cell phone, secured with snap fastener
- special snap fasteners prevent the bag from unintentionally coming off
- robust Cordura fabric

The rescue-tec Holster radio/mobile phone offers firefighters a practical and reliable way to carry radios and mobile phones when fighting forest and vegetation fires.

Material: Cordura

Dimensions: 21.5 x 11 x 5 cm

Weight: 0.12kg
