

Folding Traffic Cone Pro 75 cm police model, with LED lighting

Order number: TH-01255

Retroreflective, foldable traffic cone with integrated lighting. Even better visibility in the dark thanks to the full-surface processing of retroreflective materials. They are also suitable for use on busy roads or highways.

The special version of the Bavarian Police was developed in cooperation with the Bavarian police and is made with a foot from natural rubber. It is therefore completely free of pollutants. The cone remains odorless even at high temperatures in the car and can therefore be stored for a long time in the passenger compartment of vehicles.

- ideal for marking barriers and danger areas
- visible from all directions (360 °)
- easiest handling
- easy to stow due to the small space requirement, fits in every trunk and under the car seat
- higher stability due to higher weight
- odorless and pollutant-free thanks to the use of natural rubber
- better stability thanks to natural rubber base
- fully retroreflective, visible from afar (over 300 m)
- with integrated, powerful flashing light for even better visibility in the dark or in diffuse light
- flashing device splash-proof
- battery life over 300 hours
