

Vehicle Movement Device GOJAK 6200, left

Order number: TH-02000

The GOJAK maneuvering aid is the optimum tool for quickly moving vehicles that can no longer be moved under their own power or are hindering rescue work without using a great deal of force.

The patented lifting system is attached to the vehicle within seconds, and the vehicle can be effortlessly lifted with a few operations of the foot pedal. Once all four wheels have been raised from the ground, the vehicle can be moved by a single person.

In order to be equipped for any eventuality, it is advisable to have a set of four GOJAKs. The result is a total lifting capacity of 2.2 tons with the GOJAK 6200. This is sufficient to even lift all-terrain vehicles and vans. (price per each)

for the left side of the vehicle

dimensions: 600 x 600 x 160 mm

wheel width max.: 33 cm
