

Special Glass Punch, spring pressure release

Order number: TH-02130

Hardened spring center punch for effective and fast rescue.

- one-hand operation
- compact design
- can be stored in the handle of the original glass master

Length: 13 cm

Saving lives requires lightning fast reactions and the right tool!

This self-striking special spring punch is designed to shorten rescue time.

With its one-handed operation, rescuers can effortlessly open side or rear windows with a simple touch and press. The automatic center punch can be used as a stand-alone tool or stored in the handle of the original Glass Master.
