

Duct tape, 50 mm x 5 m

Order number: TH-02141

It offers almost unlimited uses in traffic accidents, for sealing chemical protection suits and for improvisation.

- very stable with fabric insert
- strong adhesive
- very diverse
- water repellent

width: 50 mm

length: 5 m

It is particularly suitable in traffic accidents for masking windows, for attaching or making grab handles with which windows can be removed, and for masking window sealing rubbers so that the rolled-down side windows of vehicles do not pop up when working with rescue equipment!
