

Workplace Floodlight, Aldebaran 360° FLEX LED 600 Compact

Order number: TH-04030

The Aldebaran 360 degrees relies on high flexibility and efficient use of the bright LED light. The possibility of choosing between 360 degrees all-around light and surrounding illumination directed downwards nearly continuously opens up a wide range of applications. On construction sites, at rescue operations or at events, using light effectively is the supreme discipline of the 360 degrees FLEX-LED.

The system is ready to use in a few minutes. With the integrated, intelligent controlling you can choose between half (180°) and full (360°) lighting. The mast foot is constructed for a 30mm DIN bolt. Additionally, the luminaire has a ring, so that it can be suspended on ceilings etc.

- extremely high light power up to 90.000 lumen
- low operation costs
- high life time
- maximum robustness - resistant in outdoor use
- fast assembly and dismantling by only one person

power: 640 W

luminous flux: approx.. 90.000 lm

illuminant: 4 x LED module a 160 W

life time: approx.. 50.000 h

dimensions: approx. Ø 235 x 537 mm

weight: approx. 15 kg
