

LED-MAMBA, 50 m, 75.000 Lumen

Order number: TH-04052

Indispensable for the flexible illumination of your application sites.

The LED Mamba offers a truly unique lighting solution. Mobile, flexible and extremely robust, it illuminates rooms, tunnels or corridors.

The potential use is as flexible as the illuminant itself. Quickly set up and just as quickly packed away again, it is particularly suitable for temporary use in technical assistance, evacuation or marking of specific areas such as landing sites. But also for long-term solutions on construction sites in mining and tunneling.

Due to their high protection class and compact design, they can be used in almost any area!

• compact size and low weight
• extendable up to 75 m
• excellent passive cooling
• up to 125 lm/W system efficiency
• low power consumption of the electronic ballast technology
• 100% light output immediately after switching on

Included in delivery
Cable reel

Light color: 6,000 Kelvin
