

EUROM Power Generator GE2501, 2.000 W, 4-stroke

Order number: TH-04291

Compact, independent and powerful power generation.

- safe and compact
- low-maintenance motor
- power output of up to 2,200 W
- two 230V splash-proof sockets with hinged cover
- sound-absorbing design - extremely quiet in use
- rubber motor mounts tilted at 45° for excellent vibration damping
- 15 l tank capacity guarantees 11 hrs. running time at 75 % load
- thanks to the voltmeter, the generated voltage is always in view
- integrated air filter protects the generator from dirt and damage
- air cooling for a long service life
- solid steel frame for easy and stable transport
- oil alarm warns when oil level is too low
- manual starter (cable pull)

voltage: 230 V

frequency: 50 Hz

fuel: petrol

weight: 39 kg

maximum power: 2,200 W, 9.5 A

rated power: 2,000 W, 8.6 A

engine: 1-cylinder, 4-stroke, air-cooled

engine output: 7 hp, 4.8 kW

engine speed: 3,000 min-1

displacement: 208 cm³

fuel tank capacity: 15 l

noise level: max. 70 dB(A)

dimensions: 430 x 580 x 450 mm

operating time at 75 % load: 11 h
