

Eccotarp Collecting Basin FASTER segmented

Order number: TH-07102

The quickly foldable version is designed to immediately collect escaping liquids. It is also ideal for maintenance work, cleaning tools or short-term storage of canisters, barrels and contaminated parts.

- for immediate collection of escaping substances
- segmented side walls allow the tub to be adapted to structures
- quick assembly and space-saving storage thanks to the folding structure
- special construction for high stability and strength
- integrated strap with buckle for transport security/storage
- eyelets in the corners for hanging the tub
- suitable for use indoors and outdoors

Material: PES/PVC 680 g/m²

Sizes:

(XS) 400 x 400 x 130 mm, capacity 20 l

(S) 600 x 600 x 130 mm, capacity 46 l

(M) 800 x 800 x 130 mm, content 83 l

(L) 1000 x 1000 x 130 mm, content 130 l

(XL) 1200 x 1200 x 130 mm, capacity 187 l

(2XL) 1500 x 1500 x 130 mm, capacity 292 l

The collecting tray is self-supporting, made of PVC with a special surface coating (PES/PVC 680 g/m²). The material is resistant to petroleum products and acids. Stability is ensured by welded corners and polypropylene reinforcements on the upper edges of the tub. The temperature range of the tubs is -30 °C to +70 °C. The drip tray is suitable for indoor and outdoor use. After the ecological disposal of the collected substance, it is necessary to wash and dry the tub with a suitable neutralizing agent or soapy water so that it is ready for further use.
