

Eccotarp Foldable Drain Tarp, dimensions 140 x 108 cm, with absorbent inlay

Order number: TH-07142

Ideal, simple solution for small quantities of water, petroleum products and dangerous liquids leaking.

The tarp is equipped with an exchangeable absorbent inlay. It can be used, for example, in the assembly of parts contaminated with oil, in chemical laboratories, on dripping pipes or hydraulic lines.

The tarpaulin is made of PVC that is resistant to petroleum products and chemical substances. A protective grille catches coarse dirt.

The absorbent pad must be selected according to the type of liquid to be collected: universal, water-repellent or chemically resistant (not included).
