

## PIG leak sealing cushion, for 250 l barrels

**Order number:** TH-07565

**The tension strap with soft polyurethane hugs the leaking area with pressure and is resistant to oil and most corrosive liquids.**

- suitable for 250 l barrels made of steel or plastic
- can be cleaned with soap and water for reuse

Length of tension strap: 183 cm

Dimensions of polyurethane patch: approx. 13 x 18 cm

The ratchet strap with urethane patches quickly applies pressure to leaks to stop leaks. The robust ratchet with 183 cm long nylon strap fixes the patch. The soft urethane sits firmly on the barrel and adapts to any shape. Withstands oil and most aggressive liquids and is easily cleaned with soap and water for reuse. Reusable and suitable for 250 liter drums made of steel, fiberboard or plastic.
