

Support System CrashStay, 2 pcs. set, incl. transport bag

Order number: TH-09090

The CrashStay is extremely robust, resilient, reliable and safe. A system you can rely on.

The supports can be completely extended continuously along the entire length and then additionally tightened using the supplied control lever. For a 100% perfect fit in every situation. The support is secured self-locking via an eccentric shaft. Since the control lever can then be removed, accidental loosening of the lock is impossible.

- galvanized steel, no compromise on stability and durability
- quick installation and tensioning
- infinitely adjustable, can be clamped to the millimeter
- self-locking mechanism for maximum safety
