

## UK 4AA eLED Surefoot, front switch, incl. batteries

**Order number:** TL-01025

The 4AA Surefoot offers very special advantages with the dual beam. The main light beam (170 lm) is bundled forward, for a bright, pinpoint illumination. A second cone of light (20 lm) exits from the side of the head of the lamp and is directed downwards. Obstacles on the ground, bumps and other pitfalls in front of you are thus better visible. Even documents, plans, etc. can be illuminated glare-free with this additional light.

- lifespan of the eLED approx. 10.000 hrs.
- rubberized switch "on-off", also easy to operate with gloves
- 100 % waterproof and dustproof
- robust ABS housing, electrically non-conductive, corrosion-resistant
- pressure compensation valve
- can also be switched on and off via the turret

supplied with:

4 AA batteries (Mignon)

dimensions: 158 x 41 x 36 mm

light source: LED

luminosity: 170 + 20 lm

burning time: 6.5 h

water resistance: up to 3 m

weight: 158 g (including batteries)

Ex protection class: II 1G Ex ia op is IIC T4 Ga / II 1D Ex ia isis  
IIC T75 ° C Da

colour: neon yellow
