

UK 4AA eLED CPO ES, front switch, incl. batteries

Order number: TL-01035

The high-end model from the UK 4AA series with explosion-proof LED technology. The lamp is equipped with special eLEDs and the revolutionary CPO (Compound Path Optics) and TRS (Thermal Recovery System) technology. An electronic keeps the luminosity at a consistently high level over the entire burning time and extends the burning time with a battery charge by up to 10%. With 130 lumens of light output, it is the strongest lamp in the UK 4AA range. In addition, this lamp has excellent gas and dust explosion protection.

- lifespan of the eLED approx. 10,000 hrs.
- rubberized switch "on-off", also easy to operate with gloves
- 100% waterproof and dustproof
- robust ABS housing, electrically conductive, corrosion-resistant
- pressure compensation valve
- simplified battery replacement by special rocker

supplied with:
4 AA batteries

dimensions: 157 x 40 x 34 mm
weight: 177 g

colour: black, with luminescent stripe
