Included in delivery:
Charging cable

Type: Lithium-ion 1250 mAh
Charging time: 3 hrs
Waterproof: IPX4 (weatherproof)
Weight: 23 g

CE, UKCA

With the PETZL Core battery, high light output is guaranteed even in cold temperatures. Thanks to the **integrated USB port**, the battery can be conveniently charged. A practical charging indicator on the battery informs with the colors red and green about the current charging status. The PETZL Core battery is a cost-effective and sustainable solution that can be used both as a main power supply and as a secondary battery. So you are always well equipped and can rely on a reliable energy source.
