

Wall Mount for Angle Head Lamp KS-8890

Order number: TL-07064

The wall bracket can be screwed through the recesses in the back and base. The bracket is supplied with 3M adhesive pads on the back and also allows non-destructive mounting on almost all surfaces. When inserting the 8890 hand lamp, two spring-loaded balls lock the lamp securely and precisely inside the wall bracket.

The wall bracket is manufactured using an additive manufacturing process in the 3D printer with an environmentally friendly plastic (PLA).

supplied with:
3M adhesive pads

material: plastic (PLA)
