

## PARASNAP® ULTRALUX Pro Base right, assembly right, for many standard DIN helmets

**Order number:** TL-08100

The PARASNAP ULTRALUX Pro right has been developed by PARAT based on the patented helmet mount system PARASNAP by PARAT. This lamp holder system continues to prove itself with an unbeatable combination of magnetic connection and mechanical lock. **For fastening a corresponding safety lamp by PARAT, you'll additionally need the PARASNAP SNAP-IN1 (for PX0, PX1, X1) or SNAP-IN2 (PX2, X2).** The PARASNAP ULTRALUX Pro Base is made from robust polyamide, PA 66. It is highly heat resistant and durable. The PARASNAP ULTRALUX Pro Base right is suitable for right-hand use. It is compatible with many standard DIN helmet brands.

Certified according to DIN EN 443:2008 for helmets:

Dräger HPS 4300
