

Rescue Tool 3, with holster

Order number: TO-01220

This professional rescue tool has been developed together with firemen and is the optimum addition to personal safety equipment. The heavy-duty version makes it easy to smash vehicle windscreens. With the integrated glass saw, even the windscreen can be removed within a short time. The holster that is provided has a loop (11 cm wide) for a fire brigade belt and two removable hook-and-loop fasteners for securing to the BA shoulder belt.

supplied with:
holster

- stainless blade
- non-slip fibre glass-reinforced handle
- special glass saw
- super-sharp serrated edge
- wide screwdriver blade or lever cutter
- window breaker
- signal strip that illuminates for up to 40 hours
- made in Solingen

length: 27 cm
weight: 500 g
