

## Rescue Knife byrd Rescue 2

**Order number:** TO-01235

**The byrd Rescue 2 is already being manufactured in the second, improved version and scores with a sheepfoot blade, which is ideal for rescue operations. The handle made of glass fiber reinforced nylon makes it particularly light.**

- stainless steel blade
- sophisticated handle ergonomics for safe and precise work
- particularly light thanks to the grip shell made of glass fiber reinforced nylon
- one-hand opening with thumb hole in the blade
- versatile metal clip
- back-lock closure

Blade length: 10 cm

Total length: 22 cm

Weight: 100 g

### Notice

The sheepfoot blade has no belly but a straight edge. The back of the blade, on the other hand, is slightly rounded. Thanks to the tip that is drawn far down, you can cut particularly precisely with this blade shape.
