

## Hydrant and Coupling Wrench, connecting all couplings from D-B

**Order number:** TO-02365

The Scotty tool combines a coupling wrench with a gas valve slide and is ideal for opening foam compound canisters.

1 "(D-Storz), 1 1/2" (38 mm), 1 3/4" (44 mm), 2" (51 mm / C-Storz), 2 1/2" (65 mm) and 3" (76 mm / B-Storz) hoses can be coupled and released. The lids of DIN and industrial canisters (70 mm) can also be opened without any problems. The opening in the handle fits the gas and water slide.

The coupling key is made of very hard special plastic and is supplied with a large clip.

length: 190 mm

weight: 97 g
