

Vallfirest Drip Torch, with handle

Order number: TO-03371

The drip torch is an indispensable tool for various tactics in fighting forest fires. Thanks to its small size, it is also ideal for helicopter crews and offers great potential for quick maneuvers.

- two safety valves prevent backfire in the tank
- lid with double thread for compact storage
- simple handling, compact and light

Note:

The drip torch should only be used by people who have been specially trained in the tactical use of this tool.

sizes: 1 l, 5 l
