

Vallfirest Fire Beater vft, with elastic telescopic handle 200 cm

Order number: TO-03396

Compact forest fire beater with an elastic telescopic handle that can be extended up to 2 meters. A revolutionary concept due to the small size in transport and the low weight. The tool can easily be carried on the back and transported in vehicles with little space.

A bag for quick and easy transport is included. Thanks to the individually adjustable shoulder strap, your hands are free to work with another tool while you carry the forest fire beater on your back.

- telescopic handle infinitely extendable
- small size because foldable
