

## VLITEX Carrier bag for fire protection blankets, 8 x 10 m

**Order number:** VB-01042

**With the VLITEX carrying bag, you can easily and even comfortably carry your fire blanket to the place of use.**

- Padding on the back for comfortable carrying
- Almost airtight, water repellent
- for blankets up to a size of 8 x 10 m
- two side pockets, important documents (instructions for use) always at hand
- quick response in emergency situations

With plenty of space, this practical transport bag offers the ideal storage option for all fire blankets up to 8 x 10 m. Thanks to its additional padding, the carrying bag makes it easy to carry the fire blanket to the scene, even over long distances. The built-in valve function enables efficient ventilation, allowing the bag to be compressed and stowed away to save space. With two side pockets, you always have the instructions for use to hand.
